

VIGYANSHU PANDEY

Software Developer | AI/ML Enthusiast

vigyanshuofficial@gmail.com | +91-8810274457 | Greater Noida, India

LinkedIn | GitHub | LeetCode

Summary

Aspiring Software Engineer and AI/ML enthusiast with experience in full-stack development, backend systems, and machine learning applications. Skilled in Python, JavaScript, Node.js, MongoDB, and OpenCV with strong fundamentals in DSA, DBMS, and REST APIs.

Technical Skills

- **Languages:** Python, Java, C++, JavaScript, SQL
- **Frontend:** HTML, CSS, React Native
- **Backend:** Node.js, Express.js, REST APIs
- **Databases:** MongoDB, MySQL
- **AI/ML:** Pandas, Scikit-learn, OpenCV
- **Tools:** Git, GitHub, Postman
- **Core CS:** DSA, OOP, DBMS, Operating Systems, Computer Networks

Experience

Technical Support Intern – Homies4U

May 2025 – July 2025

- Managed real-time application datasets and resolved UI/backend issues to improve system reliability
- Collaborated with developers to optimize workflows and enhance user experience

Projects

Smart Hospitality Management System (Major Project)

Python, OpenCV, Node.js, MongoDB, REST APIs

- Developed an AI-powered hospitality management platform for workforce prediction and cleanliness verification
- Built RESTful APIs and integrated OpenCV-based image validation for automation workflows
- Reduced room turnaround time by 20–30% through AI-driven task allocation
- Published a research paper based on the project; second paper under review

Homely Kitchen – ML-Based Food Delivery Platform

Python, Pandas, Scikit-learn, JavaScript, HTML, CSS

- Developed a scalable food delivery platform enabling homemakers to sell food online
- Implemented a machine learning recommendation system for personalized food suggestions
- Designed responsive frontend UI and improved recommendation engagement using user data

Sportify App – Sports Community Mobile Application

React Native, Node.js, Express.js, MongoDB

- Built a mobile application for player networking, match scheduling, and activity tracking
- Developed backend APIs for authentication, real-time updates, and user management
- Improved community engagement through activity-based interaction features

Education

B.Tech in Computer Science & Engineering

2022 – 2026

Sharda University, Greater Noida, UP

Relevant Coursework: DSA, DBMS, Operating Systems, Computer Networks

CBSE — Class X: 73% | Class XII: 70%

2020 – 2022

Govt Excellence Higher Secondary School

Achievements & Certifications

- Solved 150+ problems on LeetCode including 50+ SQL problems
- Built 8+ projects on GitHub
- Oracle Certifications — PL/SQL | Database Foundations | Java Developer
